

SoluSoft confirms its participation in Gitex 2009

By SoluSoft Technologies Pvt. Ltd

Dated: Sep 14, 2009

SoluSoft Technologies announced its participation in GITEX 2009. During the show, SoluSoft will launch some powerful business solutions for SME and Government enterprise. It will also introduce Arabic versions of some of its leading applications.

Ahmedabad, India: SoluSoft Technologies Pvt. Ltd., a growing global Business Process Solutions provider confirmed their participation in GITEX Technology Week 2009. The company is set to showcase its latest range of products and services. The company booth will be located in Indian Pavilion Hall B-8 Stall no. 12.

SoluSoft in accordance with the GITEX theme “Power Up Your Business” will unveil its latest range of products which will power up small, medium, and government enterprise businesses. The company will focus on three distinct areas namely IT solutions, Network Security, and Web Development services. SoluSoft acknowledges GITEX as an internationally recognized ICT platform, and therefore will launch Arabic versions of Online Testing, Scoring Application and Time & Labor, Leave and Accounts Management Application that is targeted to power up native Middle Eastern businesses. It will also showcase the latest version of its Unified Network Threat & Security Management Device. Having identified the demand of SharePoint services in GITEX 2008, SoluSoft will also demonstrate its strong capabilities and solution templates in SharePoint platform for Business Automation Process.

The solutions displayed at the booth will cover a wide spectrum of industries including Retail, Life Science, Insurance, Finance, Education, and more. SoluSoft’s team will highlight and demonstrate solutions at enterprise level. SoluSoft’s CEO, Mr. Kiran Thakrar, added, “Following the overwhelming demand for Arabic versions of our products from the UAE market over the last two years, this year we will launch Document Management and Workflow System, Online Knowledge Testing and Scoring System, as well as Employee Time, Leave, Labor and Accounts Management System in Arabic. The focus for GITEX 2009 will be liaison with government organization for setting up paperless business environment for Middle East, offering custom solutions to clientele & building local channel partners in Middle East. SoluSoft’s special packages for Website Design, Development, and Optimization services for complete web business setup will be another attraction for upcoming businesses.
