

## SoluSoft gears up for GITEX Technology Week 2008, Dubai

*After experiencing excellent results in the Middle-East market after its GITEX 2007 participation, SoluSoft will showcase its complete range of innovative IT solutions at the GITEX Technology Week 2008 in Dubai. The entire spectrum of Products & Services from three distinct business areas -Technology, Embedded, and Graphics will be on display. This will be an opportunity to network, connect and build channel partners in this region.*

Ahmedabad, Gujarat, IND, 2008-10-12 18:02:55 (IndiaPRwire.com)

SoluSoft Technologies Pvt. Ltd., a global provider of Business Process Solutions announces its participation in GITEX Technology Week 2008, from 19-23 October 2008, Dubai. This show will provide a platform to facilitate joint ventures, strategic alliances and expand its customer base with its presence in the **Indian Pavilion, Stand No. E7-26 (Hall 7)**.

The SoluSoft stand will showcase its latest range of packaged solutions for small- & medium-size businesses from its Technology, Embedded & Graphics department. During this show, SoluSoft will unveil some of its latest agile solutions for various business applications; embedded board-and-appliance-level PCs; and graphical services offerings. The team at the booth will demonstrate real-time application to visitors. These solutions will cover industry segments, including Government, Manufacturing, Retail, Life Science, Insurance, Finance, Education and more. These solutions are the result of deep domain expertise and intensive R&D by the development professionals at SoluSoft. Software & Services outsourcing will be another major attraction for visitors. SoluSoft is continually expanding its range of products and services to provide unmatched choice
